

BATTERYcharge 1002

9-stage charging cycle

For easy charging of Lead Acid / AGM batteries

6V / 12V compatible

Suitable for vehicles from 6V to 12V, thus for most motorbikes, cars and vans

Start/Stop compatible

Suitable for vehicles with Start/Stop system

Reliable, intelligent charging made simple

Meet BATTERYcharge 2A, OSRAM's compact smart battery charger, designed for effortless maintenance of smaller batteries. With a 2A charging rate, this intelligent device works with 6V and 12V systems, making it usable for many motorbikes and small vehicles.

Thanks to its 9-stage fully automatic charging process for Lead Acid batteries and dedicated 7-stage cycle for Lithium, it ensures your battery gets the care it deserves.

Enjoy easy monitoring with clear indicators, and take advantage of extra-long cables for flexible access in any engine bay. Once your battery is charged, BATTERYcharge 2A automatically switches to maintenance mode, so you're always ready to go. Rated IP65 and supplied with a storage bag, it's built to perform in different conditions.

Whether you're maintaining your motorbike or a small vehicle, BATTERYcharge 2A is the smart, practical choice for everyday battery care.
